Subject: Closure Plan for Fenton Hill Geothermal 1-MG Service Pond and EE-2A Production Well

Dear Mr. Beers:

The OCD is in receipt of the above subject plan dated August 14, 2002 and hereby approves of the plan with the following conditions:

1. All waste shall be disposed of at an OCD approved site.
2. A final report shall be submitted for OCD approval by June 30, 2003.

Please be advised that NMOCD approval of this plan does not relieve Los Alamos National Laboratory of liability should their operations fail to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve Los Alamos National Laboratory of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Sincerely:
