Notes: Sampling frequencies: Q = quarterly (4 times/yr); S = semiannual (2 times/yr); A = annual (1 time/yr); B = biennial (1 time/2 yr); T = triennial (1 time/3 yr); V = quinquennial (1 time/5 yr).

^a — = No samples are scheduled to be collected from this monitoring group during this period.

^b An 8-h extended purge will be conducted at R-62 during the second quarter as noted in Table E-1.0-1 (Watch List for Deep Monitoring Wells).

^c R10 S1, R-10 S2, R-34.

^d Semiannual sampling events in the Water/CdV watershed will be conducted in March and August, when possible, to improve the likelihood that there will be sufficient water to collect samples from base-flow and alluvial well locations.
