Mr. John E. Kieling
Permits Management Program
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303

Dear Mr. Kieling:

**SUBJECT: LOS ALAMOS NATIONAL LABORATORY HAZARDOUS WASTE FACILITY
PERMIT INFORMATION REPOSITORY IMPLEMENTATION AND
LOCATION NOTIFICATION**

This letter provides notification to the New Mexico Environment Department- Hazardous Waste Bureau (NMED-HWB) from the National Nuclear Security Administration and Los Alamos National Security, LLC (NNSA/LANS), collectively known as the Permittees, that an Information Repository (IR) has been established for Los Alamos National Laboratory (LANL). Pursuant to Section 1.10 and Attachment I (*Compliance Schedule*) of the LANL Hazardous Waste Facility Permit issued in November 2010, the Permittees must establish an electronic Information Repository and a physical Information Repository. The repositories will hold information required to be submitted by the Permit or correspondence associated with the Permit as detailed in Section 1.10 of the Permit.

The electronic version of the Information Repository will be known as the Electronic Public Reading Room (EPRR) and can be found at <http://epr.lanl.gov/>. The Hardcopy Public Reading Room (HPRR) is located at:

J. Robert Oppenheimer Study Center and Research Library
4200 West Jemez Road at Casa Grande
Los Alamos, NM 87545
<http://www.lanl.gov/environment/outreach/prr.shtml>

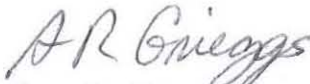

The HPRR features hard copy environmental documents, reports, and correspondence and is open to the general public from 9:00 a.m. - 4:00 p.m., Monday through Friday. Please note that the Permittees

are currently evaluating options for relocating the HPRR to another location in Pojoaque or Española at some time later this calendar year.

Establishment of the EPRR and notification of location information for the HPRR was required to be conducted no later than June 28, 2011. The Las Conchas Wildfire forced closure of the Laboratory beginning Monday, June 27, 2011 and the Permittees requested a two-week extension from the date the Laboratory re-opened for this compliance deadline. The NMED-HWB granted this extension request on June 28, 2011. The Laboratory re-opened on July 6, 2011.

Public notice will be conducted to the NMED-HWB maintained LANL-facility mailing list, in newspapers, and electronically in accordance with Section 1.10 of the Permit. If you have questions about this notification or the electronic or hardcopy Public Reading Rooms, please contact Mark Haagenstad (Water Quality & RCRA Group) at 505-665-2014 or Gene Turner (Los Alamos Site Office) at 505-667-5794.

Sincerely,

Anthony R. Grieggs
Group Leader
Water Quality & RCRA Group
Los Alamos National Laboratory

Sincerely,

Gene E. Turner
Environmental Permitting Manager
