Subject: Submittal of Delta Prime Site Aggregate Area Investigation Report

Dear Mr. Bearzi:

Enclosed please find two hard copies with electronic files of the "Delta Prime Site Aggregate Area Investigation Report." This investigation report presents the results of investigations and corrective actions, summarizes the data collected, and offers recommendations and conclusions for sites not impacted by active utilities in accordance with the New Mexico Environment Department-approved investigation work plan.

Activities at sites impacted by active utilities are still in progress. The isolation of utilities to various facilities that impact several Delta Prime Site Aggregate Area sites is nearly completed. Where possible, corrective actions and sample collection at these impacted sites (as outlined in the approved work plan) have begun and will be reported as soon as the data become available.

If you have any questions, please contact Mark Thacker at (505) 665-5342 (mthacker@lanl.gov) or Woody Woodworth at (505) 665-5820 (lwoodworth@doeal.gov).

Sincerely,

Susan G. Stiger, Associate Director
Environmental Programs
Los Alamos National Laboratory

Sincerely,

David R. Gregory, Project Director
