Dear Mr. Bearzi:

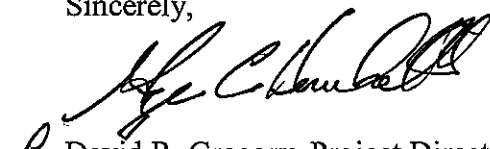

Enclosed please find two hard copies with electronic files of the "Work Plan to Plug and Abandon Cañon de Valle Well CdV-16-2(i)". This work plan summarizes the methods Los Alamos National Laboratory proposes to use in plugging and abandoning groundwater monitoring well CdV-16-2(i). The well will be abandoned in accordance with the requirements and guidelines of the "New Mexico Environment Department Monitoring Construction and Abandonment Guidelines" and Sections IV.B.1.b.v and X.D (Well Abandonment) of the Compliance Order on Consent. This work plan also responds to the New Mexico Environment Department's above-referenced approval with modifications letter for supplemental investigation for intermediate and regional groundwater at Technical Area 16.
