Subject: Submittal of the Response to the Notice of Disapproval for the Work Plan for Supplemental Soil-Vapor Extraction Pilot Test Implementation/Reporting at Material Disposal Area G, Technical Area 54 and Revision 1

Dear Mr. Bearzi:

Enclosed please find two hard copies with electronic files of the response to the notice of disapproval for the Work Plan for Supplemental Soil-Vapor Extraction Pilot Test Implementation/Reporting at Material Disposal Area G, Technical Area 54 and revision 1 of the work plan.

The data collected under this soil-vapor extraction (SVE) pilot test will be used to determine whether or not SVE has the potential to be an effective component of the final remediation at material disposal area (MDA) G. However, remedial action objectives are required to judge the viability of SVE at the site and for full-scale system design. In order to properly design an SVE system these objectives need to be identified.

In support of the development of the final report, the Los Alamos National Laboratory (the Laboratory) requests a meeting with the New Mexico Environment Department 90 days before the report is due to discuss the structure of the report and the remedial action objectives for the MDA G VOC plumes, so that the viability of SVE as an effective component of remediation at MDA G may be evaluated and demonstrated.

If you have any questions, please contact Jarrett Rice at (505) 665-3874 (wjrice@lanl.gov) or Ed Worth at (505) 606-0398 (eworth@doeal.gov).

Sincerely,

Michael J. Graham, Associate Director
Environmental Programs
Los Alamos National Laboratory

Sincerely,

David R. Gregory, Project Director
Environmental Operations
Los Alamos Site Office

MG/DG/AB/JR:sm

Enclosures: Two hard copies with electronic files:

- (1) Response to the Notice of Disapproval for the Work Plan for Supplemental Soil-Vapor Extraction Pilot Test Implementation/Reporting at Material Disposal Area G, Technical Area 54 (LA-UR-10-0081)
- (2) Work Plan Supplemental Soil-Vapor Extraction Pilot Test Implementation/Reporting at Material Disposal Area G, Technical Area 54, Revision 1, (LA-UR-10-0046)
