**Subject: Submittal of the Response to the Notice of Disapproval Investigation Work Plan for Chaquehui Canyon Aggregate Area**

Dear Mr. Bearzi:

Enclosed please find two hard copies with electronic files of the response to the notice of disapproval investigation work plan for Chaquehui Canyon Aggregate Area.

As noted in our response, Los Alamos National Laboratory (the Laboratory) intends to use the data from the voluntary corrective actions (VCAs) conducted at Solid Waste Management Units (SWMUs) 33-002(a-c) for decision purposes (i.e., to determine nature and extent and conduct risk screening) and will prepare a VCA summary report for these sites. Although decision-level data were presented in the work plan in descriptions of past activities for the other five sites listed in the notice of disapproval [SWMUs 33-006(a), 33-007(b), 33-010(c), and Areas of Concern C-33-001 and C-33-003], the Laboratory does not intend to use the data for nature and extent determination or risk screening and therefore will not submit a VCA summary report for these sites.

If you have any questions, please contact John McCann at (505) 665-1091 (jmccann@lanl.gov) or Suzy Schulman at (505) 606-1962 (sschulman@doeal.gov).

Sincerely,

Michael J. Graham, Associate Director  
 Environmental Programs  
 Los Alamos National Laboratory

Sincerely,

David R. Gregory, Project Director  
 Environmental Operations  
 Los Alamos Site Office
