Subject: Completion Report for Regional Aquifer Well R-37, Revision 1

Reference: Letter, Messrs. Rael and Graham to Mr. Bearzi, dated 08/20/10

Dear Mr. Bearzi:

Los Alamos National Laboratory (the Laboratory) is voluntarily submitting a revision to the Completion Report for Regional Aquifer Well R-37. This submittal is prompted by the New Mexico Environment Department's (NMED's) July 22, 2010, letter, Approval Completion Report for Regional Aquifer Well R-37. Although not required by the above-referenced letter, the Laboratory is submitting this revision for completeness and accuracy of the Administrative Record.

During revision of the report, it was discovered that the Laboratory made an error in its Response to the Approval for the Completion Report for Regional Aquifer Well R-37, submitted to NMED on August 20, 2010. In Comment 1, the depth of the bottom of screen 1 is incorrectly stated as 951.0 ft below ground surface. The correct depth is 950.0 ft, as presented in the enclosed report.

If you have any questions, please contact Ted Ball at (505) 665-3996 (tedball@lanl.gov) or Ed Worth at (505) 606-0398 (eworth@doeal.gov).

Sincerely,

Michael J. Graham, Associate Director
 Environmental Programs
 Los Alamos National Laboratory

Sincerely,

George J. Rael, Manager
 Environmental Projects Office
 Los Alamos Site Office
