Hai,

The 10 business day deadline has passed so the extension is automatically granted as stated in the Order. We submitted an approval letter for management review anyway. Are you planning to be at the IFGWMP meeting today?

Dave,

Any decision yet on this resubmitted extension request?

As you may know, the City has had further conversations with the USGS. The USGS now thinks they own the piezometers and they stated that they are unlikely to grant access because they are broke and do not have the money to P&A them in the event they are damaged during the attempted removal of the rocks and other obstructions. We will be having an internal technical meeting, and then will schedule a joint meeting with NMED and the City.

Thanks.

Hai

Hai,

Thanks. The formal copy just came in. We won't be fast enough to get a response out by April Fools Day so the response will be believable.

Dave,

As promised on the phone, the resubmittal of the extension request is attached. It goes out one day earlier than April 1 to avoid April Fools' Day. Tori, Rhodes and I called James to notify him of this resubmittal.

If you have any questions, please let us know.

Thanks.

Hai
