**SUBJECT: EXTENSION REQUEST APPROVAL
LOS ALAMOS NATIONAL LABORATORY, EPA ID# NM0890010515**

Dear Mr. Griggs:

The New Mexico Environment Department (NMED) received a request from Los Alamos National Laboratory (LANL) on August 8, 2011, to extend the 90-day accumulation time limit at Site ID #5267 for three boxes of explosive-contaminated parts and debris that is currently stored in Technical Area 22, Building 118, as described in LANL letter ENV-RCRA 11-0152.

The NMED has reviewed the request and grants LANL a 30-day extension to the accumulation time to allow LANL to arrange safe treatment at interim status open detonation unit TA-36-8 once less fire risk is present.

If you have any questions regarding this approval, please contact John Kieling by phone at (505) 476-6035.

Sincerely,

Art Vollmer
Manager
Compliance & Technical Assistance Program
