**RE: APPROVAL
PROPOSED EXCHANGE IN THE R-65 AND R-66 SCHEDULES
LOS ALAMOS NATIONAL LABORATORY
EPA ID#NM0890010515
HWB-LANL-MISC-GW**

Dear Messrs. Rael and Graham:

The New Mexico Environment Department (NMED) is in receipt of the United States Department of Energy (DOE) and Los Alamos National Security, L.L.C.'s (collectively, the Permittees) document entitled *Proposed Exchange in the R-65 and R-66 Schedules* (Request) dated September 2, 2011 and referenced by EP2011-0301.

Permittees propose to install well R-66 prior to installing well R-65, which is the reverse of the originally planned installation schedule. The Permittees cite recent water-level data and water-quality results collected at newly installed well R-64 and its relationship to the proposed location for regional well R-65 as justification for the change. NMED hereby approves the request to exchange the completion dates for wells R-65 and R-66.

As proposed in the Request, regional wells R-66 and R-65 must be completed by October 30, 2011 and December 6, 2011, respectively. The Permittees must inform NMED, via e-mail, of the completion of R-66 and R-65 and must submit to NMED Fact Sheets for
