**RE: APPROVAL
EXTENSION REQUEST FOR
SUBMITTAL OF THE PHASE II INVESTIGATION REPORT
NORTH ANCHO CANYON AGGREGATE AREA
LOS ALAMOS NATIONAL LABORATORY
EPA ID#NM0890010515
HWB-LANL-10-014**

Dear Messrs. Rael and Graham:

The New Mexico Environment Department (NMED) is in receipt of the United States Department of Energy (DOE) and Los Alamos National Security, L.L.C.'s (collectively, the Permittees) document entitled *Request for Extension to Submit the Phase II Investigation Report for North Ancho Canyon Aggregate Area* dated November 21, 2011 and referenced by EP2011-0397.

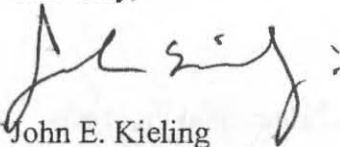

The Permittees request the extension to submit the investigation report due to the need to focus efforts on shipment of aboveground transuranic (TRU) waste from Technical Area (TA) 54 to the Waste Isolation Pilot Plant, located in Eddy County, New Mexico. The need to remove TRU waste stored at TA-54 is aligned with Governor Martinez' policy to prioritize groundwater and surface water protection and accelerate the removal of TRU waste stored at Los Alamos National Laboratory.

COR-EP-12-7-2011-404060

The Permittees stated cause for the requested time extension is acceptable. The submittal date for the investigation report is hereby postponed from September 30, 2012 to **September 30, 2014**, as requested. NMED may re-evaluate the need for this extension based on the Permittees' progress in accelerating removal of TRU waste from TA-54 or if new information becomes available that indicates off-site migration of contamination. The Permittees must notify NMED, within 30 days of receipt of such information, should funds become available in the future that allow for the investigation report to be prepared and submitted for the North Ancho Canyon Aggregate Area prior to September 30, 2014.

Please contact Neelam Dhawan at (505) 476-6042 should you have any questions.

Sincerely,

John E. Kieling
Acting Chief
Hazardous Waste Bureau
