Dallas, TX 75202-2733

Subject: NPDES Permit No. NM0030759—Submittal of Completion of Corrective Action for Sites in ACID-SMA-2 and LA-SMA-5.33

Dear Ms. Johnsey:

These documents are being submitted in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) Permit No. NM0030759 for Los Alamos National Laboratory, issued to Los Alamos National Security, LLC, and the U.S. Department of Energy, effective November 1, 2010. Completion of corrective action is being certified to the U.S. Environmental Protection Agency as specified in Part I, Section E.2(d),

The Site has achieved RCRA “corrective action complete without controls/corrective action complete with controls” status or a Certificate of Completion under NMED’s Consent Order....

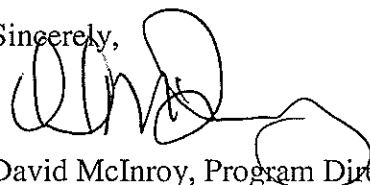

This certification that corrective action is complete was prepared in accordance with 40 Code of Federal Regulations 122.22(b). Accordingly, the Certificates of Completion issued under the New Mexico Environment Department’s (NMED’s) Compliance Order on Consent for each of these Sites are enclosed. The documentation is organized into site monitoring area-specific reports (Table 1). Each report includes a signed certification statement and a copy of NMED’s certificate of completion. A link to this certified document can be accessed at the “Regulatory Documents” tab at the following website: <http://www.lanl.gov/community-environment/environmental-stewardship/protection/compliance/individual-permit-stormwater/documents.php>)

Table 1
Two Sites with Certification of Completion of Corrective Action

Associated SMA Number	Site Number	Watershed	Site Priority
ACID-SMA-2	45-001	Los Alamos/Pueblo	Moderate
ACID-SMA-2	45-002	Los Alamos/Pueblo	Moderate
ACID-SMA-2	45-004	Los Alamos/Pueblo	Moderate
LA-SMA-5.33	32-004	Los Alamos/Pueblo	Moderate

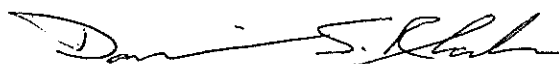

If you have any questions, please contact Steve Veenis at (505) 667-0013 (veenis@lanl.gov) or David Rhodes at (505) 665-5325 (david.rhodes@nnsa.doe.gov).

Sincerely,

David McInroy, Program Director
