John E. Kieling, Chief
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6313

Dear Mr. Kieling:

Subject: Notification of Class 1 Permit Modification to Attachment B, Part A Application for the Los Alamos National Laboratory Hazardous Waste Facility Permit, EPA ID # NM0890010515

This letter's purpose is to notify the New Mexico Environment Department – Hazardous Waste Bureau (NMED-HWB) of a Class 1 permit modification to the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit (Permit) issued to the Department of Energy (DOE) and Los Alamos National Security, LLC (LANS), collectively the Permittees, in November 2010. The modification includes changes within the Attachment B, *Part A Application*. Changes to the *Part A Application* include the facility contact and address information, correction of a typographical error, an editorial correction, corrections of listings for Environmental Protection Agency Hazardous Waste Numbers, and descriptions of additions and revisions that were made on a previous form that was submitted on June 14, 2013.

The modification has been prepared in accordance with Title 40 of the Code of Federal Regulations, (40 CFR) §270.42(a)(1). Changes to the Permit are pursuant to 40 CFR §270.42, Appendix I, Item A.1, administrative and informational changes. The modification ensures the Attachment B, *Part A Application* is up-to-date and can be certified as “true, accurate, and complete” as required by 40 CFR §270.11(d). Additionally, the most recent version of the form from the EPA is utilized within this permit modification.

This package includes this letter and an enclosure (LA-UR-13-26341) containing a description of the permit modification, and the full updated Part A Application. The form has been given a new revision number; therefore the updated form is not shown with editing marks. Accordingly, a signed certification page is also enclosed.

Three hard copies and one electronic copy of this submittal will be delivered to the NMED-HWB. A notice will be sent to the NMED-HWB-maintained LANL facility mailing list in accordance with the conditions specified in 40 CFR 270.42(a)(1)(ii).

If you have comments or questions regarding this permit modification, please contact Gene Turner of my staff at (505) 667-5794 or Mark Haagenstad, LANS, at (505) 665-2014.

~~For~~ Geoffrey L. Beausoleil
Acting Manager

Enclosure: (1) Class 1 Permit Modification Notification to Attachment B, Part A Application for the Los Alamos National Laboratory Hazardous Waste Facility Permit, August 2013

Hazardous Waste Bureau**

Dear Mr. Kieling:

Subject: Notification of Class 1 Permit Modification to Attachment B, Part A Application for the Los Alamos National Laboratory Hazardous Waste Facility Permit, EPA ID # NM0890010515

This letter's purpose is to notify the New Mexico Environment Department – Hazardous Waste Bureau (NMED-HWB) of a Class 1 permit modification to the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit (Permit) issued to the Department of Energy (DOE) and Los Alamos National Security, LLC (LANS), collectively the Permittees, in November 2010. The modification includes changes within the Attachment B, *Part A Application*. Changes to the *Part A Application* include the facility contact and address information, correction of a typographical error, an editorial correction, corrections of listings for Environmental Protection Agency Hazardous Waste Numbers, and descriptions of additions and revisions that were made on a previous form that was submitted on June 14, 2013.

The modification has been prepared in accordance with Title 40 of the Code of Federal Regulations, (40 CFR) §270.42(a)(1). Changes to the Permit are pursuant to 40 CFR §270.42, Appendix I, Item A.1, administrative and informational changes. The modification ensures the Attachment B, *Part A Application* is up-to-date and can be certified as “true, accurate, and complete” as required by 40 CFR §270.11(d). Additionally, the most recent version of the form from the EPA is utilized within this permit modification.

This package includes this letter and an enclosure (LA-UR-13-26341) containing a description of the permit modification, and the full updated Part A Application. The form has been given a new revision number; therefore the updated form is not shown with editing marks. Accordingly, a signed certification page is also enclosed.

Three hard copies and one electronic copy of this submittal will be delivered to the NMED-HWB. A notice will be sent to the NMED-HWB-maintained LANL facility mailing list in accordance with the conditions specified in 40 CFR 270.42(a)(1)(ii).

ENCLOSURE 1

**Class 1 Permit Modification to Attachment B, Part A Application for
the Los Alamos National Laboratory Hazardous Waste Facility
Permit, August 2013**

LA-UR-13-26341

Date: AUG 26 2013

Permit Modification Notification

This document provides a notification to the New Mexico Environment Department (NMED) for a Class 1 Permit Modification to modify the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit (Permit) issued to the Department of Energy and the Los Alamos National Security, LLC (collectively known as the Permittees), in November 2010. This modification, requested by NMED, consists of revisions to Attachment B of the Permit, *Part A Application*, to accurately reflect the relevant changes that have occurred at LANL or been approved by NMED since the issuance of the renewed Permit in November, 2010. These changes to the Part A Application are detailed further in this document. The updated form (Amendment 12.0 of the LANL Part A Application) is included in this submittal as Attachment 1.

There have been several previous amendments to the Part A Application. Amendment 6.0 was the Part A Application contained in the renewed Permit in November, 2010, which is the baseline version being updated with this new revision. Part A Amendments 7.0, 7.2, and 10.0 are discussed in the items below to incorporate them in this latest version as part of the description to this permit modification.

Amendment 8.0 was submitted as part of the Technical Area (TA)-63 Transuranic Waste Facility (TWF) Permit Modification Request (Revision 3.0, October 3, 2012). Amendment 9.0 was submitted on May 2, 2013 as part of a Class 2 permit modification request for the TA-54-38 West permitted waste management unit. On June 26, 2013 Amendment 11.0 was submitted as part of a withdrawal and resubmittal of that same Class 2 permit modification request, therefore Amendment 9.0 is superseded and Amendment 11.0 for the re-submitted Class 2 permit modification request has yet to be approved. Amendment 10.0 was previously submitted as a Class 1 permit modification to the Part A Application Form on June 14, 2013.

Basis

These changes must be made to the form to ensure it is current and can be certified as “true, accurate, and complete” as required by 40 CFR § 270.11(d) and as stated on the Permittees’ signature line of the Part A form. The new Amendment 12.0 of the Part A Application is classified as an administrative change pursuant to 40 CFR § 270.42, Appendix I, Item A.1, because no changes in requirements are proposed; only information updates to the application are being made. Changes to interim status U. S. Environmental Protection Agency (EPA) Hazardous Waste Numbers at TA-16, TA-36 and TA-39 were made in accordance with 40 CFR § 270.72(a)(1).

Description

The amendment number for this revision of the Part A Application Form is 12.0 and it contains all changes in previous Amendments 7.0, 7.2, and 10.0. This revision incorporates all changes made to interim status units in previously submitted Part A Application forms, brings up to date other general information about the facility and permitted units, and corrects errors and inconsistencies within previous amendments. Each of the changes described below is an update to the previous form submitted on June 14, 2013 (Amendment 10.0) or references the first time the change was made in a previous submittal. Changes to Amendment 6.0 that were adequately described in the June 14, 2013

Class 1 permit modification are not re-described within this submittal. Changes from Amendment 10.0 to Amendment 12.0 have been highlighted in Attachment 1 of this permit modification. Changes made at earlier dates have been described below for clarity, but are not highlighted within the attachment. Additionally, a signed certification page is included as Attachment 2.

The specific changes are as follows:

1. The amendment number was changed to 12.0 (see page 1 of 4 of the Part A Application form).
2. Address and signatories have been updated for the most recent contact information (see page 4 of 4 and Page 1 of 6).
3. Correction of a typographical error in Section 5, *Other Environmental Permits* (see page 1a of 6). This is an update to the June 14, 2013 Part A Application form (Amendment 10.0) that was submitted as a Class 1 permit modification.
4. Additions to Section 7, *Process Codes and Design Capacities (Continued)* for TA-14 (see pages 3 of 6). This change was included in the June 14, 2013 Part A Application form (Amendment 10.0) that was submitted as a Class 1 permit modification, however, a description of the change was not included in the modification. A note, "See lines 2 & 3," was added to the form and definitions of "pounds per detonation" and "gallons per burn/pounds per burn" were added to line 2 for clarity. The informational updates were originally included in Amendment 7.0 of the Part A Permit Application form included as part of the *Los Alamos National Laboratory Permit Modification Request for Open Detonation Units at Technical Areas 36 and 39 (TA-36-8 & TA-39-6), Revision 0* submitted to NMED on July 19, 2011 and in Amendment 7.2, which was a supplement to that permit modification request submitted on August 18, 2011.
5. Additions to Section 7, *Process Codes and Design Capacities (Continued)* for TA-54, Area L (see pages 3 of 6). A note was added to "See Line 3" rather than "See Lines 3-5" previously included in the *Los Alamos National Laboratory General Part A Permit Application, Revision 6.0* (LA-UR-09-04027 and AR 31720). This was changed for consistency as part of the form update included in the June 14, 2013 Part A Application form (Amendment 10.0) that was submitted as a Class 1 permit modification, however, a description was not included in the modification. The change was originally submitted in Amendments 7.0 and 7.2 of the Part A Permit Application form for the *Los Alamos National Laboratory Permit Modification Request for Open Detonation Units at Technical Areas 36 and 39 (TA-36-8 & TA-39-6), Revision 0* described above in Item 4.
6. Revisions to Section 9, *Descriptions of Hazardous Wastes (Continued. Use the Additional Sheet(s) as necessary; number pages as 5 a, etc.)* for TA-16 (see page 5e of 6). This change was included in the June 14, 2013 Part A Application form (Amendment 10.0) that was submitted as a Class 1 permit modification, however, a description was not included in the modification. EPA Hazardous Waste Number D010 was added and U019 through U239 were removed from the waste descriptions list. These changes were made to accurately describe waste types that have the future potential for treatment at the TA-16 units. The addition of the D010 number was to

include selenium as a possible component of waste streams needing treatment and was made to address the requirements for the change during interim status provisions of 40 CFR §270.72(a)(1). The deletion of the other numbers reflects that waste streams containing these components are no longer treated. The revisions were originally included for the interim status units as part of the Part A Application forms Amendments 7.0 and 7.2 that were included as part of the *Los Alamos National Laboratory Permit Modification Request for Open Detonation Units at Technical Areas 36 and 39 (TA-36-8 & TA-39-6), Revision 0* described in Item 4.

7. Revision to Section 9, *Descriptions of Hazardous Wastes (Continued. Use the Additional Sheet(s) as necessary; number pages as 5 a, etc.)* for TA-36 (see page 5f of 6). This change was included in the June 14, 2013 Part A Application form (Amendment 10.0) that was submitted as a Class 1 permit modification, however, a description of the change was not included in the modification. D010 was added to the EPA Hazardous Waste Numbers list to accurately describe waste types that have the potential for treatment at the unit at TA-36. This addition was made to address the requirements for the change during interim status provisions of 40 CFR §270.72(a)(1). This change for the interim status unit was originally included as part of the Part A Application forms Amendments 7.0 and 7.2 that were included as part of the *Los Alamos National Laboratory Permit Modification Request for Open Detonation Units at Technical Areas 36 and 39 (TA-36-8 & TA-39-6), Revision 0* described in Item 4.
8. Revision to Section 9, *Descriptions of Hazardous Wastes (Continued. Use the Additional Sheet(s) as necessary; number pages as 5 a, etc.)* for TA-39 (see page 5g of 6). This change was included in the June 14, 2013 Part A Application form (Revision 10.0) that was submitted as a Class 1 permit modification, however, a description of the change was not included in the modification. D010 was added to the EPA Hazardous Waste Numbers list to accurately describe waste types that have the potential for treatment at the units at TA-39. This addition was made to address the requirements for the change during interim status provisions of 40 CFR §270.72(a)(1). This change for the interim status units was originally included as part of the Part A Application forms Amendments 7.0 and 7.2 that were included as part of the *Los Alamos National Laboratory Permit Modification Request for Open Detonation Units at Technical Areas 36 and 39 (TA-36-8 & TA-39-6), Revision 0* described above in Item 4.
9. Editorial correction to Section 9, *Descriptions of Hazardous Wastes (Continued. Use the Additional Sheet(s) as necessary; number pages as 5 a, etc.)* for TA-54, Area L (see pages 5t and 5u of 6). Commas have been added to numerical notations from D030 to K047 for consistency. This is an update to the June 14, 2013 Part A Application form (Amendment 10.0) that was submitted as a Class 1 permit modification.
10. Corrections to the list of EPA Hazardous Waste Numbers in Section 9, *Descriptions of Hazardous Wastes (Continued. Use the Additional Sheet(s) as necessary; number pages as 5 a, etc.)* for TA-54, Area L (see page 5dd of 6). A partial listing of numbers was duplicated and over-written from the last revision of the Part A Application forms. The second listings for U200 through U219 were deleted as duplicates and U221 - U223, U225 - U228, U234 - U240, U243, U244, and U246 -

U248 were added for consistency with the 2009 Part A Application Form, (Amendment 6.0) that was originally included in the Permit. This is a correction to and an update for the June 14, 2013 Part A Application form.

11. Corrections to the list of EPA Hazardous Waste Numbers in Section 9, *Descriptions of Hazardous Wastes (Continued. Use the Additional Sheet(s) as necessary; number pages as 5 a, etc.)* for Technical Area 54, West (see page 5aaa and 5ddd of 6). EPA Hazardous Waste Numbers U080 and U239 were corrected to be consistent with previous Part A revisions. U080 was corrected from 44 pounds to 132 pounds and U239 was corrected from 44 pounds to 88 pounds for the estimated annual quantity of waste. These were typographical errors that were included in the June 14, 2013 Class 1 Permit Modification.

10. Type of Regulated Waste Activity (at your site)
 Mark "Yes" or "No" for all current activities (as of the date submitting the form); complete any additional boxes as instructed.

A. Hazardous Waste Activities; Complete all parts 1-10.

- Y N **1. Generator of Hazardous Waste**
 If "Yes", mark only one of the following – a, b, or c.
- a. LQG: Generates, in any calendar month, 1,000 kg/mo (2,200 lbs./mo.) or more of hazardous waste; or Generates, in any calendar month, or accumulates at any time, more than 1 kg/mo (2.2 lbs./mo) of acute hazardous waste; or Generates, in any calendar month, or accumulates at any time, more than 100 kg/mo (220 lbs./mo) of acute hazardous spill cleanup material.
- b. SQG: 100 to 1,000 kg/mo (220 – 2,200 lbs./mo) of non-acute hazardous waste.
- c. CESQG: Less than 100 kg/mo (220 lbs./mo) of non-acute hazardous waste.

If "Yes" above, indicate other generator activities in 2-4.

- Y N **2. Short-Term Generator** (generate from a short-term or one-time event and not from on-going processes). If "Yes", provide an explanation in the Comments section.
- Y N **3. United States Importer of Hazardous Waste**
- Y N **4. Mixed Waste (hazardous and radioactive) Generator**

- Y N **5. Transporter of Hazardous Waste**
 If "Yes", mark all that apply.
- a. Transporter
- b. Transfer Facility (at your site)

- Y N **6. Treater, Storer, or Disposer of Hazardous Waste** Note: A hazardous waste Part B permit is required for these activities.

- Y N **7. Recycler of Hazardous Waste**

- Y N **8. Exempt Boiler and/or Industrial Furnace**
 If "Yes", mark all that apply.
- a. Small Quantity On-site Burner Exemption
- b. Smelting, Melting, and Refining Furnace Exemption

- Y N **9. Underground Injection Control**

- Y N **10. Receives Hazardous Waste from Off-site**

B. Universal Waste Activities; Complete all parts 1-2.

- Y N **1. Large Quantity Handler of Universal Waste (you accumulate 5,000 kg or more) [refer to your State regulations to determine what is regulated]. Indicate types of universal waste managed at your site. If "Yes", mark all that apply.**
- a. Batteries
- b. Pesticides
- c. Mercury containing equipment
- d. Lamps
- e. Other (specify) _____
- f. Other (specify) _____
- g. Other (specify) _____

- Y N **2. Destination Facility for Universal Waste**
 Note: A hazardous waste permit may be required for this activity.

C. Used Oil Activities; Complete all parts 1-4.

- Y N **1. Used Oil Transporter**
 If "Yes", mark all that apply.
- a. Transporter
- b. Transfer Facility (at your site)

- Y N **2. Used Oil Processor and/or Re-refiner**
 If "Yes", mark all that apply.
- a. Processor
- b. Re-refiner

- Y N **3. Off-Specification Used Oil Burner**

- Y N **4. Used Oil Fuel Marketer**
 If "Yes", mark all that apply.
- a. Marketer Who Directs Shipment of Off-Specification Used Oil to Off-Specification Used Oil Burner
- b. Marketer Who First Claims the Used Oil Meets the Specifications

D. Eligible Academic Entities with Laboratories—Notification for opting into or withdrawing from managing laboratory hazardous wastes pursuant to 40 CFR Part 262 Subpart K

❖ You can **ONLY** Opt into Subpart K if:

- you are at least one of the following: a college or university; a teaching hospital that is owned by or has a formal affiliation agreement with a college or university; or a non-profit research institute that is owned by or has a formal affiliation agreement with a college or university; AND
- you have checked with your State to determine if 40 CFR Part 262 Subpart K is effective in your state

Y N 1. Opting into or currently operating under 40 CFR Part 262 Subpart K for the management of hazardous wastes in laboratories
See the item-by-item instructions for definitions of types of eligible academic entities. Mark all that apply:

- a. College or University
- b. Teaching Hospital that is owned by or has a formal written affiliation agreement with a college or university
- c. Non-profit Institute that is owned by or has a formal written affiliation agreement with a college or university

Y N 2. Withdrawing from 40 CFR Part 262 Subpart K for the management of hazardous wastes in laboratories

11. Description of Hazardous Waste

A. Waste Codes for Federally Regulated Hazardous Wastes. Please list the waste codes of the Federal hazardous wastes handled at your site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page if more spaces are needed.

See Attached						

B. Waste Codes for State-Regulated (i.e., non-Federal) Hazardous Wastes. Please list the waste codes of the State-Regulated hazardous wastes handled at your site. List them in the order they are presented in the regulations. Use an additional page if more spaces are needed.

None

12. Notification of Hazardous Secondary Material (HSM) Activity

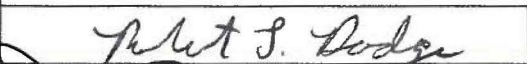

Y N Are you notifying under 40 CFR 260.42 that you will begin managing, are managing, or will stop managing hazardous secondary material under 40 CFR 261.2(a)(2)(ii), 40 CFR 261.4(a)(23), (24), or (25)?

If "Yes", you must fill out the Addendum to the Site Identification Form: Notification for Managing Hazardous Secondary Material.

13. Comments

(This section contains multiple horizontal lines for entering comments, which are currently blank.)

14. Certification. I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations. For the RCRA Hazardous Waste Part A Permit Application, all owner(s) and operator(s) must sign (see 40 CFR 270.10(b) and 270.11).

Signature of legal owner, operator, or an authorized representative	Name and Official Title (type or print)	Date Signed (mm/dd/yyyy)
	Robert L. Dodge, WM-DO, LANS	8/20/2013
	Geoffrey L. Beausoleil,	8/26/2013
	Acting Manager, Los Alamos Field Office	

ADDENDUM TO THE SITE IDENTIFICATION FORM: NOTIFICATION OF HAZARDOUS SECONDARY MATERIAL ACTIVITY

ONLY fill out this form if:

- ❖ You are located in a State that allows you to manage excluded hazardous secondary material (HSM) under 40 CFR 261.2(a)(2)(ii), 261.4(a)(23), (24), or (25) (or state equivalent). See <http://www.epa.gov/epawaste/hazard/dsw/statespf.htm> for a list of eligible states; **AND**
- ❖ You are or will be managing excluded HSM in compliance with 40 CFR 261.2(a)(2)(ii), 261.4(a)(23), (24), or (25) (or state equivalent) **or** you have stopped managing excluded HSM in compliance with the exclusion(s) and do not expect to manage any amount of excluded HSM under the exclusion(s) for at least one year. Do not include any information regarding your hazardous waste activities in this section.

1. Indicate reason for notification. Include dates where requested.

- Facility will begin managing excluded HSM as of _____ (mm/dd/yyyy).
- Facility is still managing excluded HSM/re-notifying as required by March 1 of each even-numbered year.
- Facility has stopped managing excluded HSM as of _____ (mm/dd/yyyy) and is notifying as required.

2. Description of excluded HSM activity. Please list the appropriate codes and quantities in **short tons** to describe your excluded HSM activity ONLY (do not include any information regarding your hazardous wastes). Use additional pages if more space is needed.

a. Facility code (answer using codes listed in the Code List section of the instructions)	b. Waste code(s) for HSM	c. Estimated short tons of excluded HSM to be managed annually	d. Actual short tons of excluded HSM that was managed during the most recent odd-numbered year	e. Land-based unit code (answer using codes listed in the Code List section of the instructions)

3. Facility has financial assurance pursuant to 40 CFR 261.4(a)(24)(vi). (Financial assurance is required for reclaimers and intermediate facilities managing excluded HSM under 40 CFR 261.4(a)(24) and (25))

Y N Does this facility have financial assurance pursuant to 40 CFR 261.4(a)(24)(vi)?

7. Process Codes and Design Capacities – Enter information in the Section on Form Page 3

- A. PROCESS CODE** - Enter the code from the list of process codes below that best describes each process to be used at the facility. If more lines are needed, attach a separate sheet of paper with the additional information. For “other” processes (i.e., D99, S99, T04, and X99), describe the process (including its design capacity) in the space provided in Item 8.
- B. PROCESS DESIGN CAPACITY**- For each code entered in Item 7.A; enter the capacity of the process.
- AMOUNT** - Enter the amount. In a case where design capacity is not applicable (such as in a closure/post-closure or enforcement action) enter the total amount of waste for that process.
 - UNIT OF MEASURE** - For each amount entered in Item 7.B(1), enter the code in Item 7.B(2) from the list of unit of measure codes below that describes the unit of measure used. Select only from the units of measure in this list.
- C. PROCESS TOTAL NUMBER OF UNITS** - Enter the total number of units for each corresponding process code.

Process Code	Process	Appropriate Unit of Measure for Process Design Capacity	Process Code	Process	Appropriate Unit of Measure for Process Design Capacity
Disposal			Treatment (Continued)		
D79	Underground Injection Well Disposal	Gallons; Liters; Gallons Per Day; or Liters Per Day	T81	Cement Kiln	Gallons Per Day; Liters Per Day; Pounds Per Hour; Short Tons Per Hour; Kilograms Per Hour; Metric Tons Per Day; Metric Tons Per Hour; Short Tons Per Day; BTU Per Hour; Liters Per Hour; Kilograms Per Hour; or Million BTU Per Hour

9. Description of Hazardous Wastes – Enter information in the Sections on Form Page 5

- A. EPA HAZARDOUS WASTE NUMBER** – Enter the four-digit number from 40 CFR, Part 261 Subpart D of each listed hazardous waste you will handle. For hazardous wastes which are not listed in 40 CFR, Part 261 Subpart D, enter the four-digit number(s) from 40 CFR 261, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.
- B. ESTIMATED ANNUAL QUANTITY** – For each listed waste entered in Item 9.A, estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in Item 9.A, estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.
- C. UNIT OF MEASURE** – For each quantity entered in Item 9.B, enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE	CODE	METRIC UNIT OF MEASURE	CODE
POUNDS	P	KILOGRAMS	K
TONS	T	METRIC TONS	M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure, taking into account the appropriate density or specific gravity of the waste.

D. PROCESSES

1. PROCESS CODES:

For listed hazardous waste: For each listed hazardous waste entered in Item 9.A, select the code(s) from the list of process codes contained in Items 7.A and 8.A on page 3 to indicate all the processes that will be used to store, treat, and/or dispose of all the listed hazardous wastes.

For non-listed waste: For each characteristic or toxic contaminant entered in Item 9.A, select the code(s) from the list of process codes contained in Items 7.A and 8.A on page 3 to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

NOTE: THREE SPACES ARE PROVIDED FOR ENTERING PROCESS CODES. IF MORE ARE NEEDED:

1. Enter the first two as described above.
2. Enter "000" in the extreme right box of Item 9.D(1).
3. Use additional sheet, enter line number from previous sheet, and enter additional code(s) in Item 9.E.

2. PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in Item 9.D(2) or in Item 9.E(2).

NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER – Hazardous waste that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

1. Select one of the EPA Hazardous Waste Numbers and enter it in Item 9.A. On the same line complete Items 9.B, 9.C, and 9.D by estimating the total annual quantity of the waste and describing all the processes to be used to store, treat, and/or dispose of the waste.
2. In Item 9.A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In Item 9.D.2 on that line enter "included with above" and make no other entries on that line.
3. Repeat step 2 for each EPA Hazardous Waste Number that can be used to describe the hazardous waste.

EXAMPLE FOR COMPLETING Item 9 (shown in line numbers X-1, X-2, X-3, and X-4 below) – A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from leather tanning and finishing operations. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

Line Number	A. EPA Hazardous Waste No. (Enter code)	B. Estimated Annual Qty of Waste	C. Unit of Measure (Enter code)	D. PROCESSES												
				(1) PROCESS CODES (Enter code)										(2) PROCESS DESCRIPTION (If a code is not entered in 9.D(1))

^a Based on total estimated hazardous waste chemical inventory from the TA-54 RFI Report, Los Alamos National Laboratory, Los Alamos, New Mexico, March 2000.

^b To be closed in accordance with Code of Federal Regulations (CFR), Title 40, Part 265, Subpart G. Permitted status is not requested.

10. Map

Attach to this application a topographical map, or other equivalent map, of the area extending to at least one mile beyond property boundaries. The map must show the outline of the facility, the location of each of its existing intake and discharge structures, each of its hazardous waste treatment, storage, or disposal facilities, and each well where it injects fluids underground. Include all springs, rivers, and other surface water bodies in this map area. See instructions for precise requirements.

11. Facility Drawing

All existing facilities must include a scale drawing of the facility (see instructions for more detail).

12. Photographs

All existing facilities must include photographs (aerial or ground-level) that clearly delineate all existing structures; existing storage, treatment and disposal areas; and sites of future storage, treatment or disposal areas (see instructions for more detail).

Certification

Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
