Mr. John E. Kieling, Chief
 Hazardous Waste Bureau
 State of New Mexico Environment Department
 2905 Rodeo Park Drive East, Bldg. 1
 Santa Fe, NM 87505-6303

Dear Mr. Kieling:

Subject: 2013 Biennial Hazardous Waste Report

The purpose of this letter is to transmit both hard and electronic copies of the 2013 Biennial Hazardous Waste Report developed by the National Nuclear Security Administration and Los Alamos National Security, LLC (NNSA/LANS) for the Los Alamos National Laboratory (LANL or the Laboratory). The Resource Conservation and Recovery Act (RCRA) and 20 NMAC 4.1 require that generators of hazardous waste submit a report every other year identifying hazardous (and mixed) waste generated, treated, and disposed at the facility during the previous calendar year (CY).

The Laboratory generates, stores, and treats hazardous and mixed waste on-site; however, all hazardous and mixed waste is disposed of off-site. The enclosed report documents the management (i.e., generation, treatment, or disposal) of over 3,900 RCRA hazardous and mixed waste items at LANL during CY2013. This information was compiled into the appropriate forms, and loaded into the 2013 Biennial Reporting System (BRS) Software. This year's report contains 510 waste Generation and Management (GM) forms (OMB Form 2050-0024). In calendar year 2013, NNSA/LANS generated a little more than 49,104 kilograms (kg) of RCRA hazardous waste. About 243,313 kg of RCRA hazardous waste was shipped off-site, of which 237,131 kg was mixed transuranic (MTRU) waste. About 235,559 kg of MTRU was sent to the Waste Isolation Pilot Plant (WIPP) and 1,572 kg was sent to the Advanced Mixed Waste Treatment Plant (AMWTP) at the Idaho National Laboratory.

NNSA/LANS would like to call the following points to NMED-HWB's attention.

- Per US Environmental Protection Agency (EPA) instructions for the 2013 Hazardous Waste Report (<http://www.epa.gov/osw/inforesources/data/br13/br2013rpt.pdf>, page 43, paragraph 1), hazardous wastewaters received by the Radioactive Liquid Waste Treatment Facility (RLWTF) are exempt from reporting on the Biennial Report. However, hazardous and mixed wastes generated by the RLWTF are sent to Technical Area (TA)-54, and then are disposed at an offsite facility. They are included in this report.
- In addition to EPA ID #NM890010515, NNSA/LANS also own and operate a second hazardous waste generating facility in New Mexico (Fenton Hill), having EPA ID #NMD986676807. This facility did not generate any hazardous waste in calendar year 2013, and per the instructions provided by NMED, NNSA/LANS is not required to submit a biennial report for this facility. However, a copy of EPA Form 8700-12 for the Fenton Hill facility is being submitted with this report, as was done for LANL's 2011 Biennial Report per NMED-HWB request.
- As was the case with the 2011 Biennial Report, quantities of a given waste stream generated during CY2013 may not necessarily match quantities of the same waste stream treated and/or disposed during CY2013. This is primarily due to the accelerated legacy waste shipment programs implemented during CY2013 to comply with the Framework Agreement and associated compliance programs. As a result, large quantities of mixed waste generated as long ago as the 1970s were shipped off-site for treatment and/or disposal during 2013. For many of these waste streams, no waste may have been generated during CY2013, as reported in Section 1 of their GM Forms. However, large quantities were disposed, as reflected in Section 3 of the same GM Forms.
- This report includes information on hazardous and mixed waste that was accumulated at LANL before 2013, but not managed at TA-54 until 2013. There are no cumulative inventory record-keeping requirements for storing hazardous or mixed wastes at satellite accumulation areas at LANL. However, when such wastes are moved to less-than-90 accumulation areas or permitted storage units, or sent to an off-site facility, the associated data is entered into the facility-wide data system Waste Compliance and Tracking System (WCATS), which is the principal source of information for these wastes.
- Since the 2011 Biennial Report was submitted, all of LANL's data regarding generation, treatment, storage, and disposal of RCRA hazardous and mixed wastes was migrated into a single facility-wide data system, the WCATS, a software application that has been specifically designed to manage LANL's waste data from cradle to grave. Because of fundamental differences between the old and new data systems, and because full system deployment and data migration was completed during calendar year 2013, the data for a given waste stream - as reported on its 2011 GM forms - may not necessarily correspond with the data on the same waste stream, as reported on its 2013 GM forms.
- As in past years, the Biennial Report GM forms include a field (1.G) to identify whether or not a specific waste stream has been reviewed for waste minimization opportunities. This field has an affirmative entry (i.e., A or B) when LANL began or implemented waste minimization efforts at the waste stream profile level during CY2013. Note that for

legacy wastes generated before 2013, this field will be reported as "X" (no minimization efforts) even if LANL implemented waste minimization efforts during the year a given legacy waste was initially generated. Because of this, field 1.G on the enclosed GM forms significantly under-reports LANL's actual waste minimization efforts. Therefore, the reader is referred to the report entitled "U.S. Department of Energy and Los Alamos National Security, LLC Hazardous Waste Minimization Report" (LA-UR-13-28649), which was submitted to NMED on November 25, 2013. That report presents the complete details of LANL's facility-wide Waste Minimization program, which has been in effect for more than a decade. Together, the enclosed Biennial Report and the 2013 Waste Minimization Report fulfill the requirements of 40 CFR Parts 262.41 (a)(6) and 262.41 (a)(7).

- As in past years, the Biennial Report GM forms include a COMMENTS field, in which the facility is to provide comments required by certain data entries (e.g., certain source codes, form codes, waste minimization codes, and management method codes). However, some comments displayed in the attached GM forms were unintended artifacts that were system-generated by the BRS software, and could not be modified by NNSA/LANS. Others were entered manually by NNSA/LANS in order to provide the necessary descriptive information for a given waste stream.

As recommended by the NMED and the EPA, NNSA/LANS used the BRS software supplied by the Florida Department of Environmental Protection. This software generated the following deliverables:

- Form GM, *Waste Generation and Management*. These forms describe each LANL RCRA hazardous waste stream, the off-site commercial treatment, storage and disposal facilities which accepted that waste stream, and the amount shipped in 2013, as well as waste treatment that occurred on-site, and
- Form OI, *Off-Site Identification*. This form lists all commercial and noncommercial transporters and treatment, storage and disposal facilities which accepted NNSA/LANS-generated hazardous waste.

Also enclosed in hardcopy and PDF formats are the following forms:

- An information copy of Amendment no. 17 of LANL's *RCRA Subtitle C Site Identification (SI) Form* for the LANL facility (EPA Form 8700-12). This form contains general information identifying (EPA ID # NM0890010515). Amendment no. 17, which is the most recent revision of this form, is being submitted to NMED-HWB in late February/early March 2014.
- An information copy of the *RCRA Subtitle C SI Form* (EPA Form 8700-12) for the DOE-owned facility at Fenton Hill, NM.

As mentioned above, the report contains several unintended artifacts associated with use of the BRS software, as discussed with Mr. James Valdez of your staff. The official version of Amendment no. 17 of the SI Form for EPA ID # NM0890010515, which was submitted as part of LANL's Permit Application, contains 3 NAICS codes (928110, 054171 and 056221). The

Mr. John E. Kieling
ENV-DO-14-0049

- 4 -

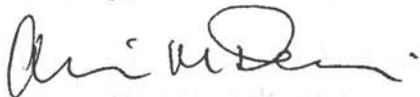

BRS software only accepts the first three letters of the NAICS codes (928, 541, and 562). Likewise, the BRS software would only accept a three letter NAICS code for EPA ID #NM890010515 (928).

Enclosure 1 is a compact disk (CD) containing the EPA-required flat files generated by the software and labeled as LANL's electronic submission. This CD, submitted only to the NMED-HWB, contains the BRS database that produced the 2013 Hazardous Waste Report for LANL, consisting of the SI, OI, and GM forms discussed above.

Enclosure 2 is a second CD. It contains true and correct copies of LANL's SI, OI and GM forms, in PDF format.

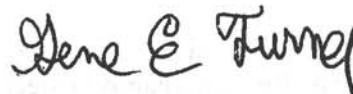

A certification statement signed by NNSA/LANS is also included in the hard copy of these documents. If you have questions regarding the contents of this report, please contact Mark Haagenstad at (505) 665-2014.

Sincerely,

Alison M. Dorries

10. Type of Regulated Waste Activity (at your site)

Mark "Yes" or "No" for all current activities (as of the date submitting the form); complete any additional boxes as instructed.

A. Hazardous Waste Activities; Complete all parts 1-10.

- Y N **1. Generator of Hazardous Waste**
 If "Yes", mark only one of the following – a, b, or c.
- a. LQG: Generates, in any calendar month, 1,000 kg/mo (2,200 lbs./mo.) or more of hazardous waste; or Generates, in any calendar month, or accumulates at any time, more than 1 kg/mo (2.2 lbs./mo) of acute hazardous waste; or Generates, in any calendar month, or accumulates at any time, more than 100 kg/mo (220 lbs./mo) of acute hazardous spill cleanup material.
- b. SQG: 100 to 1,000 kg/mo (220 – 2,200 lbs./mo) of non-acute hazardous waste.
- c. CESQG: Less than 100 kg/mo (220 lbs./mo) of non-acute hazardous waste.

If "Yes" above, indicate other generator activities in 2-4.

- Y N **2. Short-Term Generator** (generate from a short-term or one-time event and not from on-going processes). If "Yes", provide an explanation in the Comments section.
- Y N **3. United States Importer of Hazardous Waste**
- Y N **4. Mixed Waste (hazardous and radioactive) Generator**

- Y N **5. Transporter of Hazardous Waste**
 If "Yes", mark all that apply.
- a. Transporter
- b. Transfer Facility (at your site)

- Y N **6. Treater, Storer, or Disposer of Hazardous Waste** Note: A hazardous waste Part B permit is required for these activities.

- Y N **7. Recycler of Hazardous Waste**

- Y N **8. Exempt Boiler and/or Industrial Furnace**
 If "Yes", mark all that apply.
- a. Small Quantity On-site Burner Exemption
- b. Smelting, Melting, and Refining Furnace Exemption

- Y N **9. Underground Injection Control**

- Y N **10. Receives Hazardous Waste from Off-site**

B. Universal Waste Activities; Complete all parts 1-2.

- Y N **1. Large Quantity Handler of Universal Waste (you accumulate 5,000 kg or more) [refer to your State regulations to determine what is regulated]. Indicate types of universal waste managed at your site. If "Yes", mark all that apply.**
- a. Batteries
- b. Pesticides
- c. Mercury containing equipment
- d. Lamps
- e. Other (specify) _____
- f. Other (specify) _____
- g. Other (specify) _____

- Y N **2. Destination Facility for Universal Waste**
 Note: A hazardous waste permit may be required for this activity.

C. Used Oil Activities; Complete all parts 1-4.

- Y N **1. Used Oil Transporter**
 If "Yes", mark all that apply.
- a. Transporter
- b. Transfer Facility (at your site)

- Y N **2. Used Oil Processor and/or Re-refiner**
 If "Yes", mark all that apply.
- a. Processor
- b. Re-refiner

- Y N **3. Off-Specification Used Oil Burner**

- Y N **4. Used Oil Fuel Marketer**
 If "Yes", mark all that apply.
- a. Marketer Who Directs Shipment of Off-Specification Used Oil to Off-Specification Used Oil Burner
- b. Marketer Who First Claims the Used Oil Meets the Specifications

D. Eligible Academic Entities with Laboratories—Notification for opting into or withdrawing from managing laboratory hazardous wastes pursuant to 40 CFR Part 262 Subpart K

❖ You can **ONLY** Opt into Subpart K if:

- you are at least one of the following: a college or university; a teaching hospital that is owned by or has a formal affiliation agreement with a college or university; or a non-profit research institute that is owned by or has a formal affiliation agreement with a college or university; AND
- you have checked with your State to determine if 40 CFR Part 262 Subpart K is effective in your state

- Y N 1. Opting into or currently operating under 40 CFR Part 262 Subpart K for the management of hazardous wastes in laboratories
See the item-by-item instructions for definitions of types of eligible academic entities. Mark all that apply:
- a. College or University
 - b. Teaching Hospital that is owned by or has a formal written affiliation agreement with a college or university
 - c. Non-profit Institute that is owned by or has a formal written affiliation agreement with a college or university

- Y N 2. Withdrawing from 40 CFR Part 262 Subpart K for the management of hazardous wastes in laboratories

11. Description of Hazardous Waste

A. Waste Codes for Federally Regulated Hazardous Wastes. Please list the waste codes of the Federal hazardous wastes handled at your site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page if more spaces are needed.

See Attached						

B. Waste Codes for State-Regulated (i.e., non-Federal) Hazardous Wastes. Please list the waste codes of the State-Regulated hazardous wastes handled at your site. List them in the order they are presented in the regulations. Use an additional page if more spaces are needed.

12. Notification of Hazardous Secondary Material (HSM) Activity

Y N Are you notifying under 40 CFR 260.42 that you will begin managing, are managing, or will stop managing hazardous secondary material under 40 CFR 261.2(a)(2)(ii), 40 CFR 261.4(a)(23), (24), or (25)?

If "Yes", you must fill out the Addendum to the Site Identification Form: Notification for Managing Hazardous Secondary Material.

13. Comments

14. Certification. I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations. For the RCRA Hazardous Waste Part A Permit Application, all owner(s) and operator(s) must sign (see 40 CFR 270.10(b) and 270.11).

Signature of legal owner, operator, or an authorized representative	Name and Official Title (type or print)	Date Signed (mm/dd/yyyy)
	Alison M. Dorries, ENV-DO, LANS	
	Kimberly Davis Lebak,	
	Manager, Los Alamos Field Office	

ADDENDUM TO THE SITE IDENTIFICATION FORM: NOTIFICATION OF HAZARDOUS SECONDARY MATERIAL ACTIVITY

ONLY fill out this form if:

- ❖ You are located in a State that allows you to manage excluded hazardous secondary material (HSM) under 40 CFR 261.2(a)(2)(ii), 261.4(a)(23), (24), or (25) (or state equivalent). See <http://www.epa.gov/epawaste/hazard/dsw/statespf.htm> for a list of eligible states; **AND**
- ❖ You are or will be managing excluded HSM in compliance with 40 CFR 261.2(a)(2)(ii), 261.4(a)(23), (24), or (25) (or state equivalent) **or** you have stopped managing excluded HSM in compliance with the exclusion(s) and do not expect to manage any amount of excluded HSM under the exclusion(s) for at least one year. Do not include any information regarding your hazardous waste activities in this section.

1. Indicate reason for notification. Include dates where requested.

- Facility will begin managing excluded HSM as of _____ (mm/dd/yyyy).
- Facility is still managing excluded HSM/re-notifying as required by March 1 of each even-numbered year.
- Facility has stopped managing excluded HSM as of _____ (mm/dd/yyyy) and is notifying as required.

2. Description of excluded HSM activity. Please list the appropriate codes and quantities in **short tons** to describe your excluded HSM activity ONLY (do not include any information regarding your hazardous wastes). Use additional pages if more space is needed.

a. Facility code (answer using codes listed in the Code List section of the instructions)	b. Waste code(s) for HSM	c. Estimated short tons of excluded HSM to be managed annually	d. Actual short tons of excluded HSM that was managed during the most recent odd-numbered year	e. Land-based unit code (answer using codes listed in the Code List section of the instructions)

3. Facility has financial assurance pursuant to 40 CFR 261.4(a)(24)(vi). (Financial assurance is required for reclaimers and intermediate facilities managing excluded HSM under 40 CFR 261.4(a)(24) and (25))

Y N Does this facility have financial assurance pursuant to 40 CFR 261.4(a)(24)(vi)?

10. Type of Regulated Waste Activity (at your site)
 Mark "Yes" or "No" for all current activities (as of the date submitting the form); complete any additional boxes as instructed.

A. Hazardous Waste Activities; Complete all parts 1-10.

- Y N **1. Generator of Hazardous Waste**
 If "Yes", mark only one of the following – a, b, or c.
- a. LQG: Generates, in any calendar month, 1,000 kg/mo (2,200 lbs./mo.) or more of hazardous waste; or Generates, in any calendar month, or accumulates at any time, more than 1 kg/mo (2.2 lbs./mo) of acute hazardous waste; or Generates, in any calendar month, or accumulates at any time, more than 100 kg/mo (220 lbs./mo) of acute hazardous spill cleanup material.
- b. SQG: 100 to 1,000 kg/mo (220 – 2,200 lbs./mo) of non-acute hazardous waste.
- c. CESQG: Less than 100 kg/mo (220 lbs./mo) of non-acute hazardous waste.

If "Yes" above, indicate other generator activities in 2-4.

- Y N **2. Short-Term Generator** (generate from a short-term or one-time event and not from on-going processes). If "Yes", provide an explanation in the Comments section.
- Y N **3. United States Importer of Hazardous Waste**
- Y N **4. Mixed Waste (hazardous and radioactive) Generator**

- Y N **5. Transporter of Hazardous Waste**
 If "Yes", mark all that apply.
- a. Transporter
- b. Transfer Facility (at your site)

- Y N **6. Treater, Storer, or Disposer of Hazardous Waste** Note: A hazardous waste Part B permit is required for these activities.

- Y N **7. Recycler of Hazardous Waste**

- Y N **8. Exempt Boiler and/or Industrial Furnace**
 If "Yes", mark all that apply.
- a. Small Quantity On-site Burner Exemption
- b. Smelting, Melting, and Refining Furnace Exemption

- Y N **9. Underground Injection Control**

- Y N **10. Receives Hazardous Waste from Off-site**

B. Universal Waste Activities; Complete all parts 1-2.

- Y N **1. Large Quantity Handler of Universal Waste (you accumulate 5,000 kg or more) [refer to your State regulations to determine what is regulated]. Indicate types of universal waste managed at your site. If "Yes", mark all that apply.**
- a. Batteries
- b. Pesticides
- c. Mercury containing equipment
- d. Lamps
- e. Other (specify) _____
- f. Other (specify) _____
- g. Other (specify) _____

- Y N **2. Destination Facility for Universal Waste**
 Note: A hazardous waste permit may be required for this activity.

C. Used Oil Activities; Complete all parts 1-4.

- Y N **1. Used Oil Transporter**
 If "Yes", mark all that apply.
- a. Transporter
- b. Transfer Facility (at your site)

- Y N **2. Used Oil Processor and/or Re-refiner**
 If "Yes", mark all that apply.
- a. Processor
- b. Re-refiner

- Y N **3. Off-Specification Used Oil Burner**

- Y N **4. Used Oil Fuel Marketer**
 If "Yes", mark all that apply.
- a. Marketer Who Directs Shipment of Off-Specification Used Oil to Off-Specification Used Oil Burner
- b. Marketer Who First Claims the Used Oil Meets the Specifications

D. Eligible Academic Entities with Laboratories—Notification for opting into or withdrawing from managing laboratory hazardous wastes pursuant to 40 CFR Part 262 Subpart K

❖ You can **ONLY** Opt into Subpart K if:

- you are at least one of the following: a college or university; a teaching hospital that is owned by or has a formal affiliation agreement with a college or university; or a non-profit research institute that is owned by or has a formal affiliation agreement with a college or university; AND
- you have checked with your State to determine if 40 CFR Part 262 Subpart K is effective in your state

Y N 1. Opting into or currently operating under 40 CFR Part 262 Subpart K for the management of hazardous wastes in laboratories
See the item-by-item instructions for definitions of types of eligible academic entities. Mark all that apply:

- a. College or University
- b. Teaching Hospital that is owned by or has a formal written affiliation agreement with a college or university
- c. Non-profit Institute that is owned by or has a formal written affiliation agreement with a college or university

Y N 2. Withdrawing from 40 CFR Part 262 Subpart K for the management of hazardous wastes in laboratories

11. Description of Hazardous Waste

A. Waste Codes for Federally Regulated Hazardous Wastes. Please list the waste codes of the Federal hazardous wastes handled at your site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page if more spaces are needed.

B. Waste Codes for State-Regulated (i.e., non-Federal) Hazardous Wastes. Please list the waste codes of the State-Regulated hazardous wastes handled at your site. List them in the order they are presented in the regulations. Use an additional page if more spaces are needed.

None						

12. Notification of Hazardous Secondary Material (HSM) Activity

Y N Are you notifying under 40 CFR 260.42 that you will begin managing, are managing, or will stop managing hazardous secondary material under 40 CFR 261.2(a)(2)(ii), 40 CFR 261.4(a)(23), (24), or (25)?

If "Yes", you must fill out the Addendum to the Site Identification Form: Notification for Managing Hazardous Secondary Material.

13. Comments

This Facility did not generate hazardous waste in calendar year 2013.

14. Certification. I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations. For the RCRA Hazardous Waste Part A Permit Application, all owner(s) and operator(s) must sign (see 40 CFR 270.10(b) and 270.11).

Signature of legal owner, operator, or an authorized representative	Name and Official Title (type or print)	Date Signed (mm/dd/yyyy)

RECEIVED

FEB 27 2014

NMED
Hazardous Waste Bureau

Dear Mr. Kieling:

Subject: 2013 Biennial Hazardous Waste Report

The purpose of this letter is to transmit both hard and electronic copies of the 2013 Biennial Hazardous Waste Report developed by the National Nuclear Security Administration and Los Alamos National Security, LLC (NNSA/LANS) for the Los Alamos National Laboratory (LANL or the Laboratory). The Resource Conservation and Recovery Act (RCRA) and 20 NMAC 4.1 require that generators of hazardous waste submit a report every other year identifying hazardous (and mixed) waste generated, treated, and disposed at the facility during the previous calendar year (CY).

The Laboratory generates, stores, and treats hazardous and mixed waste on-site; however, all hazardous and mixed waste is disposed of off-site. The enclosed report documents the management (i.e., generation, treatment, or disposal) of over 3,900 RCRA hazardous and mixed waste items at LANL during CY2013. This information was compiled into the appropriate forms, and loaded into the 2013 Biennial Reporting System (BRS) Software. This year's report contains 510 waste Generation and Management (GM) forms (OMB Form 2050-0024). In calendar year 2013, NNSA/LANS generated a little more than 49,104 kilograms (kg) of RCRA hazardous waste. About 243,313 kg of RCRA hazardous waste was shipped off-site, of which 237,131 kg was mixed transuranic (MTRU) waste. About 235,559 kg of MTRU was sent to the Waste Isolation Pilot Plant (WIPP) and 1,572 kg was sent to the Advanced Mixed Waste Treatment Plant (AMWTP) at the Idaho National Laboratory.

NNSA/LANS would like to call the following points to NMED-HWB's attention.
