## Subject: Monthly Notification of Groundwater Data Reviewed in June 2014

Dear Mr. Kieling:

This letter is Los Alamos National Laboratory's (LANL's) written submission that meets notification requirements presented in Section IV.A.3.g, Notification, of the Compliance Order on Consent. Members of LANL's Environmental Programs met on June 11, 2014, to review new groundwater data received in May 2014.

In LANL's previous letter, "Monthly Notification of Groundwater Data Reviewed in May 2014," LANL indicated that because of updated analytical methods, some results would appear as a firsttime measurement at a location. LANL has modified the report so that these results are combined with the earlier results and are reported as usual.

This report was prepared using the May 2014 U.S. Environmental Protection Agency (EPA) Regional Screening Levels for Chemical Contaminants at Superfund Sites. EPA screening levels for  $10^{-6}$  excess cancer risk were adjusted to  $10^{-5}$  excess cancer risk as required by the Compliance Order on Consent.

## **1-Day Notification**

There were no instances of a contaminant detected at a concentration that exceeded the New Mexico Water Quality Control Commission or federal water quality standards for the first time (based on samples collected since June 14, 2007).

Notification was not required because there were no cases of a contaminant detected in a well screen interval or spring at a concentration that exceeded a water quality standard for the first time.

## **15-Day Notification**

The required information for the contaminants and other chemical parameters that meet the seven reporting criteria requiring written notification within 15 days is given in the accompanying report and table.

If you have questions, please contact Steve Paris at (505) 606-0915 (smparis@lanl.gov) or Hai Shen at (505) 665-5046 (hai.shen@nnsa.doe.gov).

Sincerely,

THE Mon

Jeff Mousseau, Associate Director Environmental Programs Los Alamos National Laboratory

Sincerely,

Sillic

Peter Maggiore, Assistant Manager Environmental Projects Office Los Alamos Field Office
