John Kieling, Bureau Chief  
Hazardous Waste Bureau  
New Mexico Environment Department  
2905 Rodeo Park Drive East, Building 1  
Santa Fe, NM 87505-6303

**Subject: 15-Day Sampling Notification for Material Disposal Area L Baseline  
Vapor Sampling**

Dear Mr. Kieling:

On July 14, 2014, Los Alamos National Laboratory is scheduled to begin baseline vapor sampling at Material Disposal Area (MDA) L at Technical Area 54. The sampling is being conducted before soil-vapor extraction (SVE) interim measure activities are conducted to provide a present-day three-dimensional description of the plume against which the SVE results can be compared. The sampling will be conducted in accordance with the MDA L interim measures work plan from the New Mexico Environment Department– (NMED-) approved vapor sampling ports (86 ports in 25 monitoring wells). Vapor sampling activities are expected to last 2 weeks.

If you have any questions, please contact Stephani Swickley at (505) 606-1628 (sfuller@lanl.gov).

Sincerely,

  
Dave McInroy, Program Director  
Environmental Programs – Corrective Actions Program  
Los Alamos National Laboratory
