Dear Mr. Kieling:

Subject: Correction and Resubmittal of Remediation Documentation Table

The purpose of this submittal is to replace a table previously transmitted to the New Mexico Environment Department (NMED) on September 30, 2014. The Los Alamos National Security, LLC (LANS) and the U.S. Department of Energy (DOE), the Permittees, sent the original table in a response document to the August 26, 2014 letter from the NMED to the Permittees. The original submittal of the table titled, *Remediation Documentation for Nitrate Salt-Bearing Waste Containers- Energy Solutions* included an incomplete listing of waste containers for the portion of the table listed as "Nitrate Salts Daughter Containers WIPP Panel 6."

The enclosed table includes information for all waste containers included in the spreadsheet provided to the Permittees by the subcontractor. The cause of the missing data was a filter that has been removed from the table in Enclosure 1.

Dear Mr. Kieling:

Subject: Correction and Resubmittal of Remediation Documentation Table

The purpose of this submittal is to replace a table previously transmitted to the New Mexico Environment Department (NMED) on September 30, 2014. The Los Alamos National Security, LLC (LANS) and the U.S. Department of Energy (DOE), the Permittees, sent the original table in a response document to the August 26, 2014 letter from the NMED to the Permittees. The original submittal of the table titled, *Remediation Documentation for Nitrate Salt-Bearing Waste Containers- Energy Solutions* included an incomplete listing of waste containers for the portion of the table listed as "Nitrate Salts Daughter Containers WIPP Panel 6."

The enclosed table includes information for all waste containers included in the spreadsheet provided to the Permittees by the subcontractor. The cause of the missing data was a filter that has been removed from the table in Enclosure 1.

**Notations for the
Remediation Documentation for Nitrate Salt-Bearing Waste Containers- Energy Solutions**

Listed below are notations made by Los Alamos National Laboratory personnel in review of the accompanied table.

- “PKG_ID” within this table is equivalent to the “Daughter ID” in the table included in Attachment 2 of this document.
- “ParentID” column within this table is not always equivalent to the “Parent ID” included in Attachment 2 of this document because overpacking or repackaging may have occurred. For a complete crosswalk of nitrate salt-bearing waste containers see the July 17, 2014 *Correction of Nitrate Salt-Bearing Waste Table as Requested by the New Mexico Environment Department* (<http://permalink.lanl.gov/object/tr?what=info:lanl-repo/epr/ERID-259138>).
- The column “Date Processed” refers to the end date of processing the waste container.
