**RE: SCHEDULE FOR DISPOSITION OF BELOW-GROUND TRANSURANIC
WASTE REQUIRING RETRIEVAL
FRAMEWORK AGREEMENT
LOS ALAMOS NATIONAL LABORATORY
EPA ID#NM0890018**

Dear Messrs. Maggiore and Mousseau:

The New Mexico Environment Department (NMED) is in receipt of the United States Department of Energy (DOE) and Los Alamos National Security, L.L.C.'s (collectively, the Permittees) document entitled *Submittal of the Schedule for Disposition of Below-Ground Transuranic Waste Requiring Retrieval* (Plan Schedule) dated December 10, 2012 and referenced by EP2012-0288. The document contains an Attachment, referenced by LA-UR-12-26765, containing the schedule, pacing milestones, assumptions and a table containing waste volumes, types and method of storage (e.g., shaft, trench).

NMED recognizes this planning exercise requires certain assumptions to be incorporated into this document in order to produce a meaningful result. However, Assumption 5, which states, "The schedule and pacing milestones set out above, assume NMED approval of a Corrective Measures Evaluation and Corrective Measures Implementation Plan for Material Disposal Area G that is consistent with the commitments set forth in this deliverable," appears to establish a link between the Plan Schedule and the March 1, 2005 Consent Order (Consent Order).

Dear Mr. Johnson:

I am pleased to inform you that the U.S. Department of Justice, Office of Inspector General, has received your letter of December 8, 2003, regarding the proposed changes to the National Institute of Corrections (NIC) budget for fiscal year 2004.

The proposed changes to the NIC budget for fiscal year 2004 are being reviewed by the U.S. Department of Justice, Office of Inspector General, and the U.S. Department of Justice, Office of Management and Enterprise Services (OMES).

NMED wishes to be very clear in this matter: there is no link between this deliverable, which is provided under the Framework Agreement, and the Consent Order. NMED's review and presumptive approval of a CME and CMI Plan for MDA G will be conducted pursuant to the Consent Order at an appropriate point in the future. However, the Plan Schedule submittal does satisfy the Permittees commitment to provide a schedule for the removal of below-ground transuranic waste in Item 1.d of the Framework Agreement.

Please contact me at (505) 827-2855 if you have questions.

Sincerely,

Dave Martin
Cabinet Secretary
