Charles Vokes, Facility Manager
Buckman Direct Diversion
341 Caja del Rio
Santa Fe, NM 87506

Subject: Submittal of the 2014 Analytical and 5-Minute Discharge Data at Gage Stations E050.1 and E060.1

Dear Mr. Vokes:

Enclosed please find two CDs of the analytical data from the 2014 field season and 5-minute discharge data from water year 2014 for gage stations E050.1 and E060.1. Transmittal of these data on CD is specified in the 2010 memorandum of understanding (MOU) between the U.S. Department of Energy (DOE) and the Buckman Direct Diversion (BDD) Board regarding water-quality monitoring.

The language in the BDD Project Data Sharing section of the new MOU, dated January 12, 2015, does not include providing BDD with the analytical and 5-minute discharge data at gage stations E050.1 and E060.1 by letter/CD because the data are now available on the Intellus New Mexico website (<http://www.intellusnm.com/>). However, the data from last year, when the 2010 MOU was in effect, have not yet been submitted to BDD. Thus, DOE and Los Alamos National Laboratory are providing last year's data by letter/CD and henceforth will begin the new data-sharing protocol discussed in the 2015 MOU.

If you have any questions, please contact Steve Veenis at (505) 667-0013 (veenis@lanl.gov) or Cheryl Rodriguez at (505) 665-5330 (cheryl.rodriguez@nnsa.doe.gov).

Sincerely,

Alison M. Dorries, Division Leader
Environmental Protection Division
Los Alamos National Laboratory

Sincerely,

Peter Maggiore, Assistant Manager
Environmental Projects Office
Los Alamos Field Office
