Dear Mr. Kieling:

**Subject: Corrected Demolition Notification for Quarter Ending March 30, 2016**

The National Nuclear Security Administration (NNSA) and Los Alamos National Security, LLC (LANS), (collectively the Permittees) are submitting a corrected notice of demolition activities for the quarter ending March 30, 2016 in accordance with Permit Section 1.17 of the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit (Permit) to the New Mexico Environment Department Hazardous Waste Bureau (NMED-HWB).

The attachment "Corrected Demolition Notification for Quarter Ending March 30, 2016 and List of Buildings and Attachment of Hazardous Materials Descriptions" (Enclosure 1) attached to this letter satisfies the reporting requirements as outlined in Section 1.17.1 of the Permit. The requirement for Section 1.17.1 (4) of the Permit identifies solid waste management units (SWMUs) and/or areas of concern (AOCs) within 50 feet of the footprint was incomplete for building 46-0128 as SWMU 46-008(f) was not identified as one of the SWMUs/AOCs. The table has been updated to include 46-008(f) as a SWMU within 50 feet of building 46-0128.
