Santa Fe, NM 87505

Dear Mr. Kieling:

Subject: Demolition Notification for Quarter Ending September 30, 2016

The National Nuclear Security Administration (NNSA) and Los Alamos National Security, LLC (LANS), collectively the Permittees, are submitting notice of demolition activities for the quarter ending September 30, 2016 in accordance with Permit Section 1.17.2 of the Los Alamos National Laboratory (LANL) Hazardous Waste Facility Permit (Permit) to the New Mexico Environment Department Hazardous Waste Bureau (NMED-HWB).

The enclosure "Demolition Notification for Quarter Ending September 30, 2016 and List of Buildings and Attachment of Hazardous Materials Descriptions" attached to this letter satisfies the reporting requirements as outlined in Section 1.17.1 of the Permit. The requirement for 1.17.1 (7) of the Permit is not relevant at this time, as this notification is not identifying buildings or fixed structures previously identified and not demolished.

The Permittees understand that investigations may not be completed at Solid Waste Management Units/Areas of Concern (SWMUs/AOCs) located within 50 feet of buildings proposed for demolition. The Permittees will ensure that the sampling locations and depths proposed in the approved work plans for the identified SWMUs/AOCs are not affected by the demolition activities. In the case of adverse impacts on the SWMUs/AOCs identified in this notification, demolition activities will be documented so that the impacts are acknowledged and evaluated. Accordingly, if a demolition report is prepared for buildings that the Department of Energy (DOE) has identified in writing, the Permittees will provide a copy of the demolition report to the NMED-HWB within 30 days after the report is completed in accordance with Section 1.17.3 of the Permit.

If you have questions or comments regarding this submittal, please contact Karen E. Armijo of the Department of Energy (DOE) at (505) 665-7314 or Mark P. Haagenstad (LANS) at (505) 665-2014.

Sincerely,

Anthony R. Grieggs
