Dear Ms. Armijo and Mr. Bretzke:

The New Mexico Environment Department (Department) has received from the United States Department of Energy and Los Alamos National Security, LLC, (collectively, the Permittees) a *Request for Class 2 Permit Modification Request for the Addition of Three Hazardous Waste Management Units at Technical Area 55, Los Alamos National Laboratory Hazardous Waste Facility Permit* (PMR) and referenced by EPC-DO-17-016 and LA-UR-16-29615. The Permittees submitted this permit modification request (PMR) on January 31, 2017, seeking to modify the Permit to add three additional storage areas to Technical Area (TA) 55.

The Department has accepted the submittal for review in accordance with the New Mexico Hazardous Waste Permit and Corrective Action Fee Regulations, 20.4.2.201.B(2) NMAC. The fee invoice is attached to this letter. If you disagree with the fee assessed, you may notify NMED in writing, at the address above, of the intent to appeal the invoice under the provisions of 20.4.2.302.A NMAC.

The New Mexico Hazardous Waste Permit and Corrective Action Fee Regulations, 20.4.2.201.F NMAC require the assessment of fees. Payment is normally due within sixty (60) calendar days from the date that you receive the invoice in accordance with 20.4.2.301.C NMAC. However, because the Department currently maintains a supplemental fee agreement with the Permittees for State fiscal year 2016, and the Permittees transmitted payment of supplemental fees, the fee invoice has been effectively paid under these supplemental fees

If you have any questions regarding this correspondence, please contact Siona Briley of my staff at 505-476-6049.

Sincerely,

Neelam Dhawan
