Subject: NPDES Permit No. NM0030759 - Analytical Results for Site Monitoring Area STRM-SMA-4.2 from the First Measurable Storm Event Following Certification of Enhanced Control Measures

Dear Mr. Herrera:

These documents are being submitted in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) Permit No. NM0030759 for Los Alamos National Laboratory, issued to Los Alamos National Security, LLC, and the U.S. Department of Energy, effective November 1, 2010. As specified in Part I, Section E.1(c):

Permittees shall certify completion of installation of control measures under this subsection to EPA within 30 days of completion of all such measures at the Site and, where applicable shall provide sampling results within 30 days of receipt of analytical results from the first measurable storm event after completion of such measures....

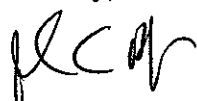

Accordingly, the analytical results from samples collected during the first measurable storm event received at site monitoring area STRM-SMA-4.2 in the last 30 days are enclosed. The attached certified document provides the reference to the certificate of completion of the installation of the control measures. This certified document can be accessed at the following website: <http://www.lanl.gov> and searching under the key words "Individual Permit."

The following certification of analytical results received from the confirmation monitoring samples collected after the completion of the installation of enhanced controls was performed in accordance with NPDES Permit No. NM0030759, Part I.E.1.

CERTIFICATION STATEMENT OF AUTHORIZATION

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware there are significant penalties for submitting false information including the possibility of fine and imprisonment for knowing violations."

Tables 1 and 2 present the analytical results received from confirmation monitoring samples collected from the first measurable storm event following the installation and subsequent certification of enhanced controls at site monitoring area STRM-SMA-4.2. Final analytical results were received and validated on September 5, 2017. The descriptions and photographs of each enhanced control installed at STRM-SMA-4.2 were provided to the U.S. Environmental Protection Agency on August 27, 2012 (EP2012-0199 / LA-UR-12-24021). Table 3 presents applicable target action levels (TALs) for the analytes monitored.
