Dear Messrs. Goodrum and Torres:

The New Mexico Environment Department (NMED) has received the United States Department of Energy (DOE) National Nuclear Security Administration, Los Alamos Field Office (NA-LA) and the Triad National Security, LLC (Triad) (collectively the Permittees) *Technical Area 63 Transuranic Waste Facility Soil Vapor Monitoring System Report, Quarter 7* (Report) dated and received June 26, 2019, and referenced by EPC-DO-19-203 and LA-UR-19-25727.

NMED has accepted the submittal for review in accordance with the New Mexico Hazardous Waste Permit and Corrective Action Fee Regulations, 20.4.2.201.B(2), NMAC. The fee invoice is attached to this letter. If you disagree with the fee assessed, you may notify NMED in writing, at the address above, of the intent to appeal the invoice under the provisions of 20.4.2.302.A NMAC.

The New Mexico Hazardous Waste Permit and Corrective Action Fee Regulations, 20.4.2.201.F NMAC require the assessment of fees. Payment is normally due within sixty (60) calendar days from the date that you receive the invoice in accordance with 20.4.2.301.C NMAC. However, because NMED currently maintains a supplemental fee agreement with the Permittees, and the Permittees transmitted payment of supplemental fees, the fee invoice has been effectively paid under these supplemental fees.

If you have any questions regarding this letter, please contact Mitchell Schatz (505) 476-6051.

Sincerely,

Neelam Dhawan
Manager, LANL Group
Hazardous Waste Bureau
