Subject: Written Update Report in Response to Granted Storage Extension Transport and Off Site Disposal of Container W824675 from Central Accumulation Area at TA-03-0066, EPA ID# NM0890010515

Dear Mr. Pierard:

This letter responds to a requirement of the New Mexico Environment Department – Hazardous Waste Bureau (NMED-HWB) correspondence dated February 20, 2020, granting an extension to the United States Department of Energy (DOE) and Triad National Security, LLC (Triad) until April 9, 2020, for the storage of waste container W824675 located in a Central Accumulation Area (CAA) at Technical Area 3 (TA-3) Building 66 (Site Identification Number 5034) that contains mixed low-level waste with silver (D011) stored over the allowable 90-day storage time (target date of March 9, 2020). The correspondence requires DOE and Triad to submit a written update to the NMED-HWB when the container has been transported off site for disposal.

On March 11, 2020, the appropriately packaged and U.S. Department of Transportation (DOT) compliant container was picked up by MP Environmental Services, Inc. (EPA ID # CAT000624247) for transport to Waste Control Specialists LLC, located in Andrews, TX (EPA ID # TXD988088464), an offsite Treatment Storage and Disposal Facility (TSDF), under Uniform Hazardous Waste Manifest ID 109000 Number 006650508FLE. The returned manifest is included in Enclosure 1.

This completes the requirement for the update reporting on the granted extension dated February 20, 2020.
