**Subject: Payment of Annual Hazardous Waste Generator Fees for Calendar Year 2022
Los Alamos National Laboratory, EPA ID# NM0890010515**

Dear Mr. Maestas:

This letter transmits to the New Mexico Environment Department – Hazardous Waste Bureau (NMED-HWB) the annual hazardous waste generator fee for Los Alamos National Laboratory (LANL) provided by Triad National Security, LLC (Triad) and Newport News Nuclear BWXT-Los Alamos, LLC (N3B), as Co-Permittees on behalf of the U.S. Department of Energy (DOE). These fees are required pursuant to the provisions of the New Mexico Administrative Code, Title 20, Chapter 4, Part 3. Based on the NMED-HWB fee regulations and calculations, the total fee due for LANL is \$20,000. The Co-Permittees submit separate reports and payments for the fee under one Environmental Protection Agency (EPA) identification number.

Attached to this letter are the associated hazardous waste fee reports for calendar year (CY) 2022. The LANL annual large quantity generator (LQG) fees were calculated separately by the Co-Permittees due to the distinct operational activities of each Co-Permittee. The total payment of the LQG fee for LANL is calculated according to the report instructions and then apportioned as a percentage of the total amount of waste generated during the CY for each Co-Permittee; each Co-Permittee pays its percentage of the fee based on the amount of hazardous waste generated for CY 2022.

Attached are four enclosures, two for each Co-Permittee.

- Enclosure 1 - Calendar Year 2022 Annual Hazardous Waste Fee Report for Triad.
- Enclosure 2 - Check #461299 for payment of Triad's portion of the LQG fee.
- Enclosure 3 - Calendar Year 2022 Annual Hazardous Waste Fee Report for N3B.
- Enclosure 4 - Check #4401 for payment of N3B's portion of the LQG fees.

The Laboratory's Fenton Hill Facility did not generate hazardous waste during this CY and therefore is not required to pay a fee for CY 2022. The enclosed fee payments represent the amount owed for a single facility owned by the DOE and co-operated by Triad and N3B.

Please contact Jessica L. Moseley at (505) 412-9362 or by email at jmoseley@lanl.gov if you have questions.

Sincerely,

KATHERINE HIGGINS

SECTION III: GENERATION STATUS DETERMINATION

Determine generator status using the largest amount of total hazardous waste generated during any one calendar month. DO NOT AVERAGE.

GENERATOR STATUS:

- * Very Small Quantity Generator means a generator who generates less than 100 kilograms (or less than 220 pounds) in any month in the calendar year and never accumulates more than 1,000 kilograms (or more than 2,204 pounds) of hazardous waste on site in any month in the calendar year.
- * Small Quantity Generator (SQG) means a generator who generates more than 100 kilograms (or more than 220 pounds) but less than 1,000 kilograms (or less than 2,204 pounds) of hazardous waste during any month in the calendar year; or a generator that accumulates more than 1,000 kilograms (or more than 2,205 pounds) of hazardous waste on site in any month in the calendar year.
- * Large Quantity Generator (LQG) means a generator who generates more than 1,000 kilograms (or more than 2,204 pounds) of hazardous waste during any month in the calendar year; or a generator who generates more than 1 kilogram (or more than 2.2 pounds) of acutely toxic or "p-listed" hazardous waste in any month in the calendar year; or a generator that accumulates more than 6,000 kilograms (or more than 13,228 pounds) of hazardous waste on site in any month in the calendar year.

SECTION IV: ANNUAL GENERATION FEES

1. Very Small Quantity Generators shall pay \$100.00 per year _____
2. Small Quantity Generators shall pay \$500.00 per year _____
3. Large Quantity Generators shall pay the following:
 - a) Large quantity generators that generate 100,000 pounds or less of hazardous waste annually: \$5,000; b) Large quantity generators that generate more than 100,000 pounds but less than 400,000 pounds of hazardous waste annually: \$10,000;
 - c) Large quantity generators that generate 400,000 pounds or more of hazardous waste: \$20,000.

Total LQG annual fee = \$ 14,000

Note: Complete and return this page of report with payment for past due fees only

SECTION V: PAST DUE FEES

Fees owed for previous years are calculated the same as above and are then multiplied by 1%. The sum of the annual the generation fee is multiplied by the number of months that the fee is past due:

$$\text{Generation} \times 1\% \times \text{Number of months past due} = \text{Late Fee}$$

This late fee is added the generation fee, and the administration charge of \$100 to determine the total past due fee owed

$$\text{Generation} + \text{Late Fee} + \$100 = \text{Total Past Due Fee}$$

$$\text{Example: } \$100.00 + \$1.00 + \$100.00 = \$201.00$$

If you are paying past due fees for multiple years, you pay the administration charge one time only. The fees for each year are due on August 1st of the following year.

Example: Fees for 2017 were due on August 1, 2018. Please calculate past due fees and enter them below:

2019 Fees	_____	\$ _____
2020 Fees	_____	\$ _____
2021 Fees	_____	\$ _____
Administrative Fee **ONLY FOR PAST DUE FEES**	_____	\$ <u>100.00</u>
 Total Past Due Fees Owed	_____	\$ <u>0.00</u>

SECTION VI: CERTIFICATION PAST DUE FEES

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents. I hereby certify that either based on my personal knowledge or my inquiry of those individuals immediately responsible for obtaining the information, the submitted information is true, accurate and complete. I hereby acknowledge that any person who knowingly omits information from or makes any false statement or representation in a fee report may be subject to criminal penalties under the Act.
