RE: DEMOLITION NOTIFICATION FOR QUARTER ENDING SEPTEMBER 30, 2023 AND LIST OF BUILDINGS AND ATTACHMENT OF HAZARDOUS MATERIALS DESCRIPTIONS, HAZARDOUS WASTE FACILITY PERMIT LOS ALAMOS NATIONAL LABORATORY EPA ID #NM0890010515 HWB-LANL-MISC

Dear Robert A. Gallegos and Brian Harcek:

The New Mexico Environment Department (NMED) has received the United States Department of Energy (DOE), the National Nuclear Security Administration Los Alamos Field Office (NA-LA) and the DOE - Environmental Management Los Alamos Field Office (EM-LA), along with Triad National Security, LLC (Triad), and Newport News Nuclear BWXT-Los Alamos, LLC (N3B) (collectively, the Permittees) *Demolition Notification for Quarter Ending September 30, 2023 and List of Buildings and Attachment of Hazardous Materials Descriptions, Hazardous Waste Permit*, dated and received June 26, 2023, and referenced by EPC-DO-23-175/LA-UR-23-25672/EM2023-0324.

As stated by the Permittees, investigations are not complete at several Solid Waste Management Units (SWMUs) and Areas of Concern (AOCs) located within 50 feet of the buildings proposed for demolition. The Permittees state that they will ensure that the sampling locations and depths proposed in the approved work plans are not affected by these activities. In the case of adverse impacts to the SWMUs/AOCs where investigations are not complete, the Permittees must document all demolition activities that affect any SWMU or AOC in detail so that any impacts on work proposed at the SWMUs/AOCs can be identified and evaluated.
