Subject: FW: No Headspace Gas Sampling for Nitrate Salts 2016.02.23

Hello Katie and John:

Due to LANL inclement weather closure today (2/23), headspace gas sampling and temperature monitoring for the remediated nitrate salt-bearing waste will not occur. However, visual inspections were conducted.

LANL will include this information in the next monthly technical summary submission. Please contact me if additional information would be helpful. Thanks!

Subject: No Headspace Gas Sampling for Nitrate Salts 2016.02.23

Due to the Lab closure, no headspace gas sampling/analysis will be performed today.

Additionally, daily temperature inspections of the RNS overpacks will not be performed; however, the daily visuals will be performed as personnel who do the inspection are already on site.
